

Interview script · merchants

Same order for everyone. Ask about the last real payment **before** showing anything. Log answers straight into "R2 Validation Log" (or the /log page).

Paytm Chukta

Consent line (read aloud, every time)

"Aapka naam ya number nahi likhenge. Bill ki photo sirf padhne ke liye, baad mein delete."

If they say no: thank them, leave, log as "declined". Log area + shop type only.

Never

- ✗ Fill answers for them
- ✗ Show Paytm first (ask about their last real payment before the concept)
- ✗ Offer anything for a "yes"; no gifts, no Paytm branding on you
- ✗ Pay or type a PIN on their behalf, or use test money / dummy payees

S Screener

1 min · stop if S1 or S2 fails

S1 Dukaan ke supplier ka payment aap khud decide karte hain?

Must be **yes** (owner, partner or manager who pays suppliers).

Role

S2 Customers kis QR / speaker pe pay karte hain?

Must include Paytm.

Receives customer payments on

S3 Pichhle 7 din mein kisi supplier ko pay kiya? Kitna, kis app se, kis phone se?

Then ask: "Woh payment kitni der mein hua?" (minutes, from opening the app to proof sent).

Last supplier payment ₹ · App used · Paid from which phone · Minutes taken

A Stage A · concept

5 min · show the concept board

A1 [Concept board dikhaiye] Distributor ka bill seedha Paytm mein, raat 9 baje Soundbox bataye "kal kya dena hai", ek tap mein pay, ya 7 din baad. 1 se 5, kitna kaam ka?

Let them point at the 1–5 row on the board. Don't explain beyond the board.

A1 Usefulness 1–5

A2 Agla bill isme bharenge ya abhi wale app se? Kyon?

Forced choice: Yes / Maybe / No. Write the "kyon" in Notes.

A2 Move next bill to Chukta?

A3 Kya cheez aapko rokegi?

Write their **exact words**, then pick one code: Distributor must agree · Trust / fraud worry · Prefer current app · Too many steps · Phone / account mismatch · Bills are paper only · Wants credit first · Data privacy · Other · None.

A3 Objection (exact words) · Objection code

Stage B · prototype tasks

B Stage B · prototype tasks

15 min · hand them the phone, don't touch it

Before handing over: open `/log` → start a new respondent (ID shows as current respondent), then open the app home. Reset demo bills if a previous shop changed them.

Unaided

Finished with no hint and no pointing.

Helped once

Exactly one hint ("neech dekhiye"), then finished.

Failed

More than one hint, gave up, or you had to do it.

T1 Apna koi asli supplier bill scan kijiye.

e-invoice QR if the bill has one, else photo or WhatsApp PDF. On the confirm screen, check every field against the paper bill. **Fields read correctly:** Yes = all right, Partly = some edited, No = none right, n/a = no bill. The app suggests both values in `/log`; nothing is filled automatically.

T1 Capture own bill · Bill route seen · Fields read correctly?

T2 Bataiye kal kisko kitna dena hai.

Correct answer on the demo inbox: Sharma Traders, ₹12,400 ("Kal due").

T2 Find tomorrow's dues

T3 Sharma Traders ka bill pay kijiye aur proof dikhaiye.

Sandbox: demo payee ends in `@invalid`, so no money can move. Start the **T3 timer** in `/log` when you finish the sentence; stop when the receipt screen shows.

T3 Pay (sandbox) · T3 seconds

T4 "7 din baad" dabaiye. Iska matlab kya hai?

Unaided only if they say, in their words, that the supplier gets paid now and they pay later.

T4 Explain "7 din baad"

After T3, ask: "Pichhla asli supplier payment kitni der mein hua?" Compare with T3 seconds; the deck reports both medians.

Ladder and distributors

c Stage C · commitment ladder

stop at the first "no"

- L1** Kya hum aapka ek asli bill Chukta mein padh ke dikhayein?
Consent → read their bill (T1 may already cover it).
L1 Shared real bill
- L2** Apne 2-3 supplier jod dein aur raat 9 baje ka reminder on kar dein?
They add suppliers themselves (Suppliers → Supplier jodein) and switch on the 9 pm toggle. Yes only if both happen.
L2 Supplier + reminder on
- L3** Jo bill aaj ya kal dena hi hai, kya woh yahin se Paytm se chukta karenge?
Capture that bill → **Abhi chukta** opens a UPI intent; owner picks Paytm and enters **their own PIN**. If Paytm refuses (NPCI blocks link payments to personal UPI IDs and small non-verified merchants): owner opens Paytm, **scans the supplier's printed QR**, types the amount and writes **INV-<no>** in the note. Then tap **"Paid via Paytm (owner confirmed)"**.
L3 Paid real bill via Paytm: Yes / No / Already paid / No bill due
- L4** 90-din ke pilot mein shaamil honge?
Take area + shop type only. Contact details go on a separate paper, never in the workbook.
L4 Pilot sign-up
- +** Kya aap yeh apne personal phone ke Paytm app mein bhi chahenge? **Wants Chukta on personal phone**

L3 safety: the owner only pays a bill they already owed today or tomorrow, to a payee whose name they confirm in their own UPI app. No test money, no dummy payees, nothing paid on the owner's behalf. The prototype never moves money.

d Distributor interview

owner or accounts head only · mornings, before dispatch

ASK (HINGLISH)	"DISTRIBUTOR LOG" COLUMN
Kitne retailers ko maal dete hain? Mahine ki sale lagbhag kitni?	Retailers served · Monthly sales ₹ (approx)
Retailers ko kitne din ka udhaar dete hain?	Retailer credit days
Kaunsa software: Tally / Marg / Busy? e-invoice (IRN) banate hain?	Billing software · Issues e-invoices (IRN)?
Collection mein kitna cash, kitna UPI QR, kitna bank transfer? (% mein)	Share: cash % · UPI QR % · bank transfer %
15 Oct se QR par 0.4% MDR: iski chinta hai?	Concern about 0.4% MDR? (Yes / No / Not aware)
Retailers ka payment-mode ledger 4 hafte share karenge?	Shared 4-week payment-mode ledger?
Pilot LOI (non-binding) sign karenge?	Signed non-binding pilot LOI?
Write one quote in their exact words.	Exact words (key quote)

Show Chukta Collect (/collect) only after the questions above: demo data, illustrative.

Pushback, logging and kit

Neutral replies when the owner pushes back

OWNER SAYS	INTERVIEWER SAYS (DOESN'T SELL)
"Isme kya fayda?"	"Aap bataiye, kis cheez mein kaam aa sakta hai ya nahi?"
"Paytm pe bharosa nahi."	"Kis wajah se? Pichhli baar kya hua tha?" (log as objection)
"Aap Paytm se ho?"	"Main IIT Kanpur ka student hoon, ek idea test kar raha hoon."
"Baad mein aana."	Thank, leave, log as "declined"; never push.

Question → workbook column

ASKED	LOGGED IN "R2 VALIDATION LOG"
S1-S3	Role · Receives on · last payment ₹, app, phone, minutes
A1-A3	Usefulness 1-5 · move next bill · objection + code
T1-T4	Task results · bill route · fields correct · T3 seconds
L1-L4	Ladder rungs (Yes / No / Already paid / No bill due for L3)
D	"Distributor Log": software, ledger, LOI

Kit checklist

- ☐ Prototype open on phone + spare phone, power bank
- ☐ 10 printed concept boards (Hindi)
- ☐ Consent line card
- ☐ Workbook / logger link on phone
- ☐ Non-binding LOI sheet for distributors
- ☐ No Paytm branding on me; no gifts
- ☐ Hindi + English OCR loaded once on Wi-Fi

End of every day

- ☐ /log → Merchants → ↓ CSV (with header)
- ☐ /log → Distributors → ↓ CSV
- ☐ /log → Prototype log → ↓ Events CSV
- ☐ Copy the CSVs off the phone (Drive / laptop)
- ☐ Fill the daily tracker tallies and pass bars
- ☐ Note the 3 most-heard objections and what you'd change
